

The Atlas Copco logo is located in the top right corner. It consists of the company name "Atlas Copco" in a white, italicized serif font, centered between two horizontal white bars. The background of the logo is a solid teal color.

Atlas Copco

A large magnifying glass is positioned over a technical drawing of a mechanical part, likely a compressor component. The drawing is rendered in a light blue color and is partially obscured by the magnifying glass's lens. The background of the entire page is a dark blue gradient with geometric shapes and textures.

Air Quality Plan

Atlas Copco Service Plan

Stop worrying about the quality of your compressed air!

The Air Quality Plan, a real-time monitoring contract which is fully compliant with the ISO 8573-1 standard, offers you the all-in support to keep your air quality on track, sensitive equipment protected, products fresh and reputation safeguarded.

Air Quality Plan

Atlas Copco Service Plan

What do you do to ensure the quality of your compressed air? To protect your sensitive equipment, the freshness of your products, the commitment to your customers and your reputation? Regular Air Quality Audits are an essential check, but why not have your Air Quality supervised in real time?

Introducing Air Quality Plan – Your key to success

Sign up for an Air Quality Plan and get all-in support to keep your Air Quality on track. The plan includes the installation of an Air Quality Monitor (AQM*) that accurately measures all vital parameters like particles, dew point, oil vapor and pressure concentration.

All this live data is sent to **SMARTLINK**, our comprehensive platform that guards the full performance of your compressed air system. Check if your air quality is within specs, dive deeper into detailed insights and trends and/or give total control to our predictive analysis, which takes place at our AI-powered diagnostics center.

As soon as a drop in Air Quality is detected, an automatic alert is being sent, triggering an action before the problem deteriorates. In addition, you will receive recommendations on how to further improve your air system.

To summarize, the Air Quality Plan includes:

- ✓ Subscription-Based Contract
- ✓ Air Quality Monitor
- ✓ **SMARTLINK** License
- ✓ Timely replacement of calibrated sensor frame
- ✓ Calibration Certificate at every replacement
- ✓ Laboratory air analysis

Do no hesitate longer and choose Atlas Copco as your vigilant Air Quality Partner!
