

The Atlas Copco logo is displayed in white italicized text within a teal rectangular box. The box is positioned in the upper right corner of the image. The background of the entire image shows a worker in a high-visibility yellow suit and orange helmet operating a large industrial drilling rig. The rig is mounted on a yellow and grey generator unit. The scene is set outdoors on a gravel surface under a clear sky. A large teal graphic element in the bottom left corner contains technical drawings and the main text of the advertisement.

*Atlas Copco*

A large teal graphic element in the bottom left corner features a technical drawing overlay. The drawing includes various circular and rectangular shapes with dimension lines and numerical values such as 1330, 1630, 3170, 3440, 308, 109, 119, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200. The text is overlaid on this graphic.

# Minimum costs & maximum performance

Optimize your drilling operations  
with a service contract.

# Upscale profitability by maximizing meters drilled

**Set up a worry-free service contract with 5-year extended warranty to minimize your costs and optimize your drilling operations.**

We know what it takes to keep your focus on your business: peace of mind. So, we have developed tailor-made, risk-free service and maintenance contracts that ease your mind and sharpen your focus for the complete lifecycle of your Atlas Copco machine.

An Atlas Copco service contract – tailored to your on-site conditions, your application, and your specific needs – maximizes your machine’s availability and efficiency. In turn, this boosts your profits, minimizes risk of downtime and your total cost of ownership, and increase your resale value by 20% to 30%!

And it’s flexible as well: the set-up of your plan starts at purchase or before the end of your standard warranty – and it can be customized and adjusted at any time, in line with your specific needs.

Take this simple step and optimize your drilling operations with an Atlas Copco service contract! It will make sure you avoid **unexpected investment spikes**, control your costs, save on parts, and benefit from a

**5-year extended warranty**

# Are you getting the most out of every meter/foot drilled?

Being active in the drilling business requires considerable investments. Every meter drilled involves not only fixed costs – such as interest on equipment acquired, labor costs, insurance, and equipment depreciation – but variable costs as well, such as expenses for fuel, drilling tools and maintenance.

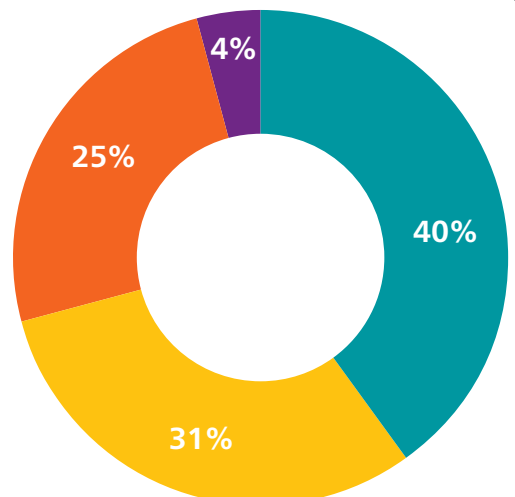

## What are the figures?\*

**40%** Labor cost, depreciation, insurance interest

**31%** Fuel costs

**25%** Drilling tools

**4%** Maintenance cost

# More drilling, better cost saving

Fixed and variable costs both take a bite out of your profits – and may slow your growth rate. So, we recommend optimizing factors such as equipment availability, energy efficiency, and minimizing breakdowns.

## Increase equipment availability

Through regular inspections and diagnostics such as oil testing and vibration analysis, our expert technicians make sure that your machine enjoys maximum uptime. So, you drill more and generate higher revenue for the same fixed and variable costs. In other words: your profitability goes up!

## Optimize fuel efficiency

Because fuel is one-third of your costs, it consumes your profits. Typically, every extra bar (14.5 PSI) of compression causes a **2-3% rise** in fuel consumption and ensuing costs. That's why **proper maintenance and genuine parts** can make your compressor more energy efficient.

## Profit from clever connectivity

Monitoring and managing your unit or fleet 24/7 with FleetLink Connectivity helps you pinpoint potential for optimization and savings. This clever connectivity enables you to maximize efficiencies, productivity and profitability.

# Maintenance matters and reliability pays off

With an Atlas Copco service contract, our expert technicians perform regular maintenance, inspections, and diagnostics to prevent costly or unexpected downtime. As a result, you drill more per year, which has an immediate and clear impact on your profitability.

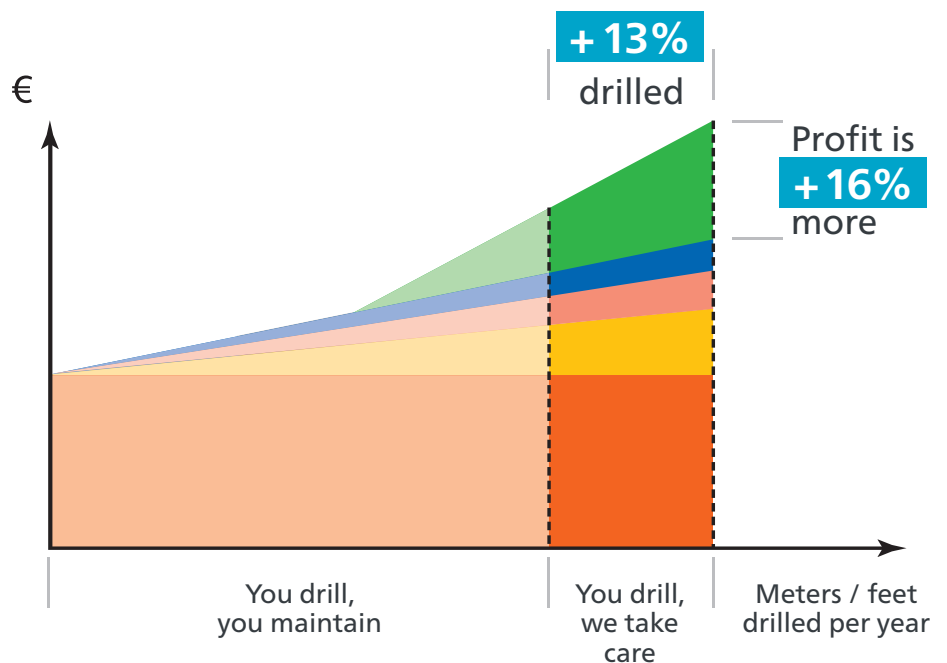

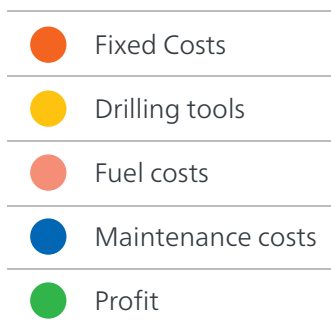

## ○ You drill, you maintain

- You do basic maintenance
- Typical availability 80%

## ✓ You drill, we take care

- Health checks
- Maintenance
- Upgrading

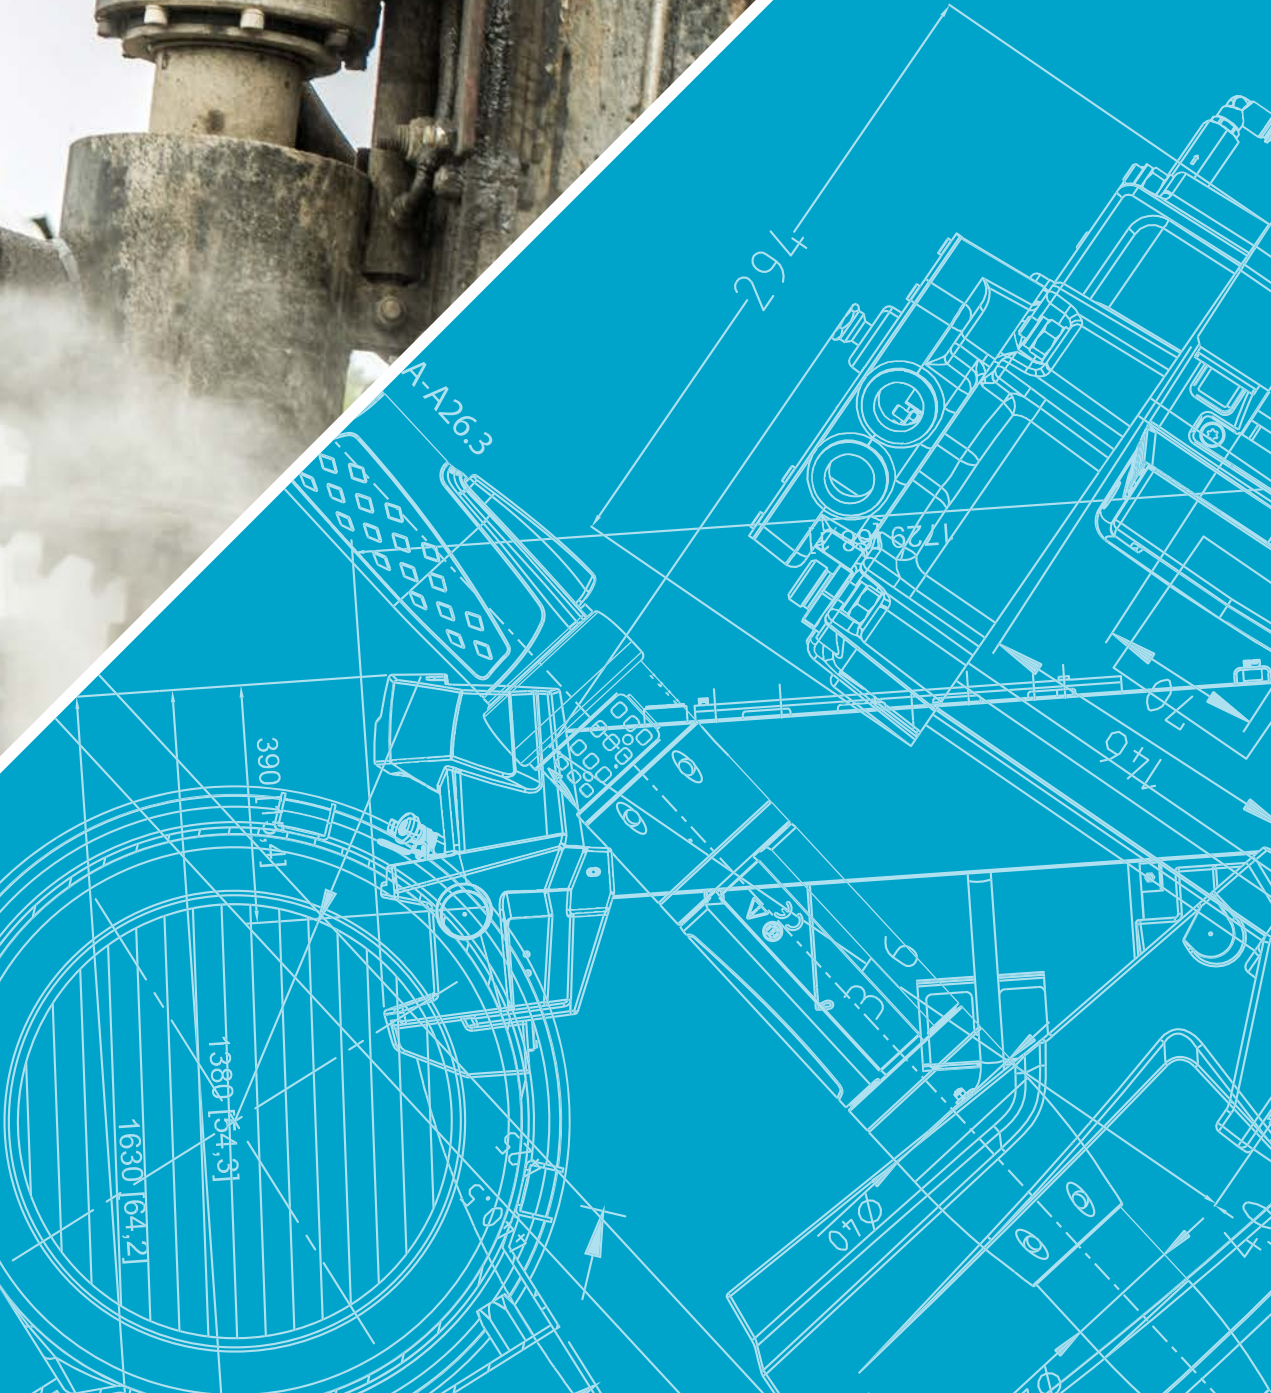

Typical availability goes up, from 80% to 90%

# Service offer for drilling operations

Optimize your drilling operations with a service contract.
