Atlas Copco Capital Markets Day - December 1, 2010

Chinese urbanization

Over the next 20 years, Chinese cities will add > 350 million people...	... the population of the entire United States
There will be > 200 Chinese cities with more than a million inhabitants...	... in Europe today there are only 35 cities of that size
There will be up to 50,000 new skyscrapers...	... the equivalent of building ten New York cities
There could be up to 170 new mass transit systems...	... in Europe today there are about 70
By 2025, two-thirds of China's citizens will live in cities...	... that's nearly 1 billion people

Atlas Copco

Construction and Mining Technique in China

- Strong market position in the high end market
- Well developed sales and distribution setup and manufacturing capability
- Strong demand in both construction and mining
- Increased local competition

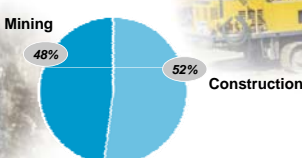

Atlas Copco

10 Atlas Copco Capital Markets Day - December 1, 2010

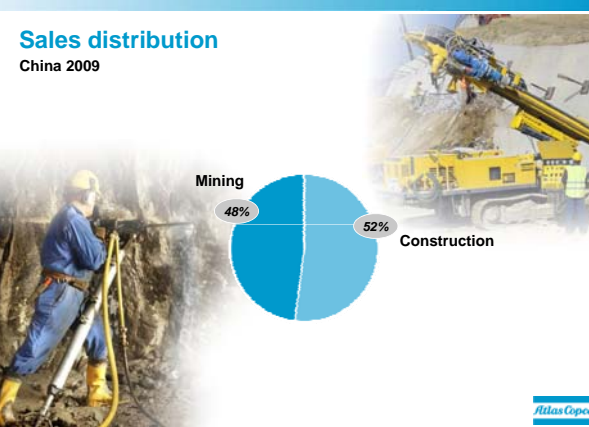

Sales distribution

China 2009

Mining 48%

Construction 52%

Atlas Copco

11 Atlas Copco Capital Markets Day - December 1, 2010

Demand driver – mining investments

- Strategic area for local investments in the 5 year plan
- Some major open pit mines are going underground
- Remote located ore bodies
- Low ore grades
- Need for efficiency improvements in operations
- Safety and environmental requirements

Atlas Copco

12 Atlas Copco Capital Markets Day - December 1, 2010

Demand driver – mining investments

- Cement – Limestone
 - China cement production represents 55% of the world
- Metals mining
 - Iron ore
 - Non-ferrous metals (copper, lead, zinc etc.)
 - Gold (China is the world largest gold producer)
- Chemical mining
- Exploration

13 Atlas Copco Capital Markets Day - December 1, 2010

Demand driver – construction investments

- Railway
 - Railways are planned to increase from 86 000 km in 2009 to 110 000 km in 2012.
- Road and highway
 - 111 highway projects started since 2009. Total planned length 12 000 km.
- Hydropower
 - Developing hydropower is a key strategy for renewable energy.
- Civil construction
 - E.g. harbors and airports.

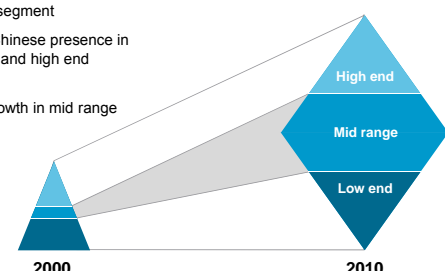

14 Atlas Copco Capital Markets Day - December 1, 2010

Competitive landscape in China

Illustrated

- Mostly international competitors in the top segment
- Growing Chinese presence in mid range and high end segments
- Fastest growth in mid range

15 Atlas Copco Capital Markets Day - December 1, 2010

Mid-range is the key

Customer segment size	Growth	Market share	Customer requirements	Competitive landscape
High end	→	●	<ul style="list-style-type: none"> Requires superior technological features, reliability, and performance Not price sensitive 	<ul style="list-style-type: none"> Primarily international players Locals have high barrier to entry
Mid range	→	◐	<ul style="list-style-type: none"> Somewhat price sensitive but still requires quality products May require emerging market oriented features 	<ul style="list-style-type: none"> Major battlefield of international players and locals
Low end	→	○	<ul style="list-style-type: none"> Most price sensitive with only basic feature/function and low quality requirements 	<ul style="list-style-type: none"> Locals dominate

○ Low
● High
