

Q2 results 2024

July 18, 2024

Atlas Copco
Group

Q2 in brief

- Mixed demand but solid overall order intake
 - Strong growth for gas and process compressors, industrial compressors flat
 - Vacuum equipment orders unchanged
 - Order decline for industrial assembly and vision solutions
 - Decreased order intake for power and flow
 - Solid growth for service in all business areas
 - Growth in all regions except Asia

- Solid revenues and operating cash flow

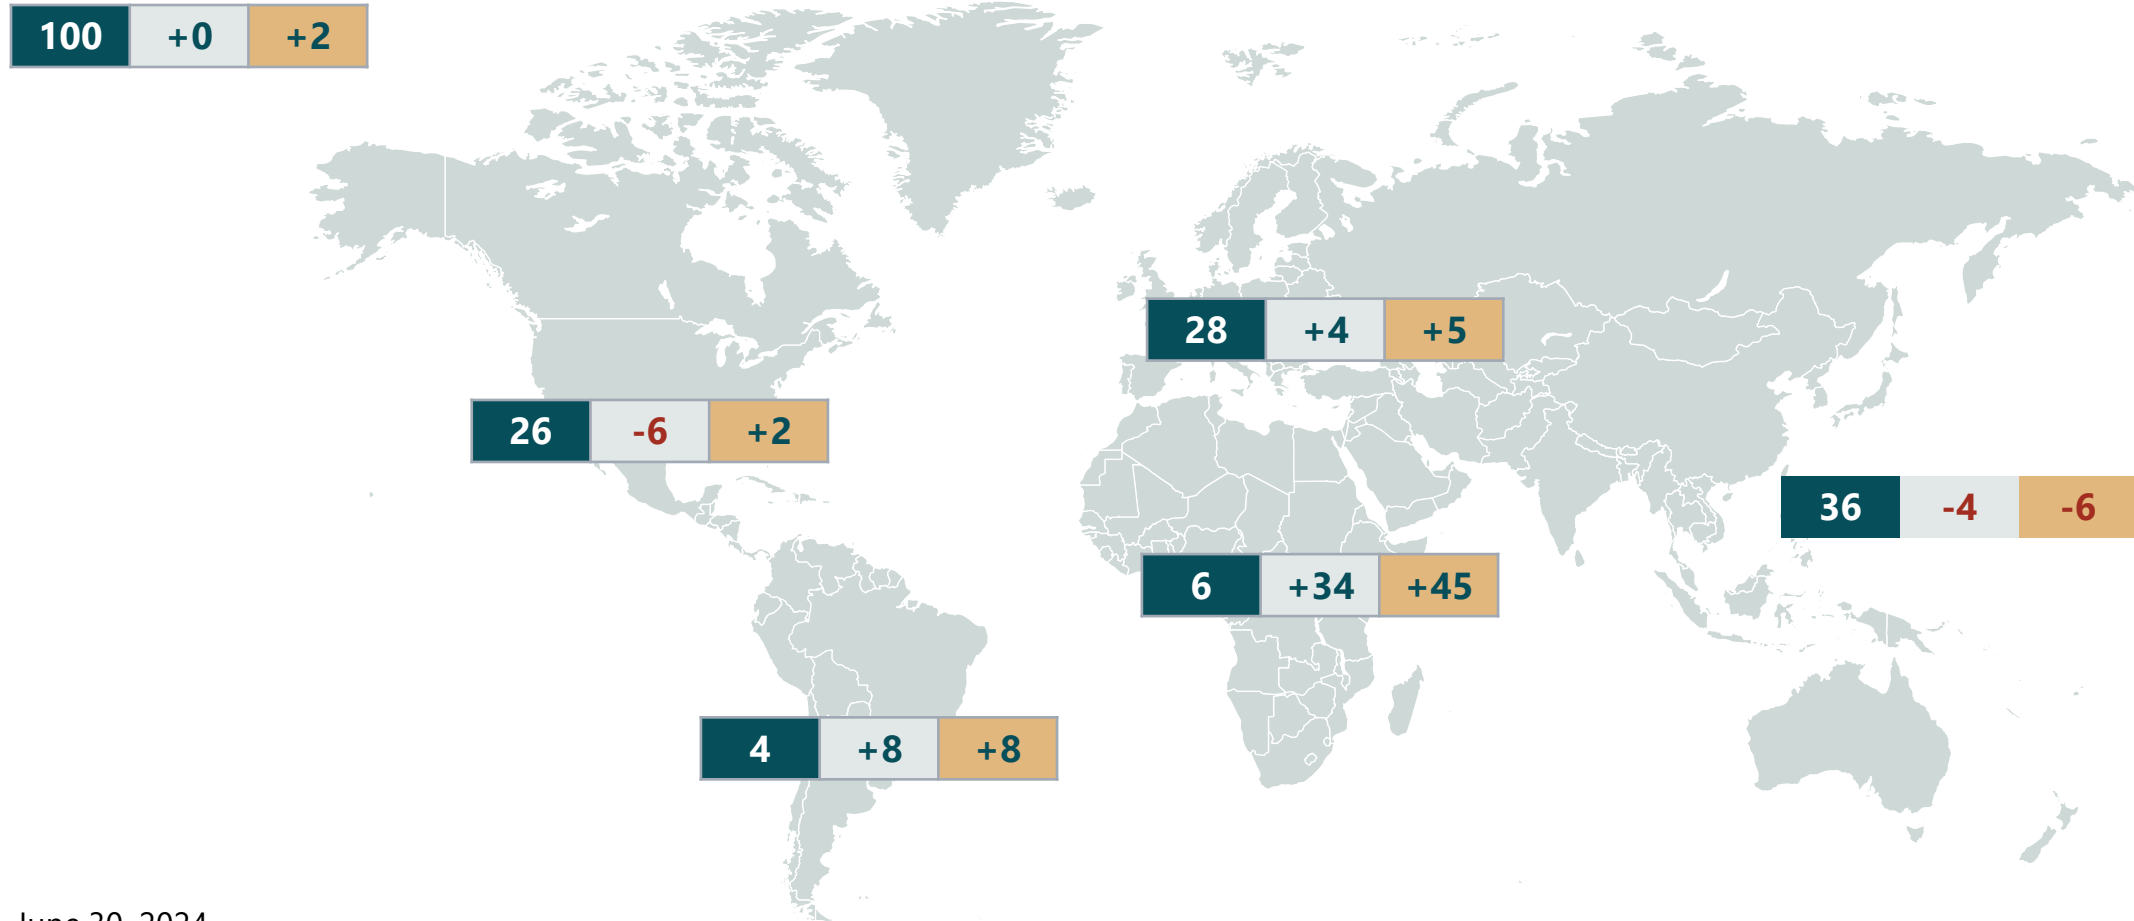

Q2 financials

- Orders received were MSEK 43 654 (43 471), organic decline of 1%
- Revenues were MSEK 44 803 (43 364), organic increase of 2%
- Operating profit reached MSEK 9 466 (9 189), margin at 21.1% (21.2)
 - Adjusted operating profit at MSEK 9 785 (9 488), margin at 21.8% (21.9)
- Profit for the period was MSEK 7 645 (6 941)
 - Positively affected by a MSEK 510 tax provision release
- Basic earnings per share were SEK 1.57 (1.42)
- Operating cash flow at MSEK 6 861 (2 864)
- Return on capital employed was 29% (30)

Orders received – local currency

June 30, 2024

2024	43 654	44 803	89 310	87 678

*Volume, price and mix.

Orders received per business area and organic order growth

* Share of Group orders received 12 months ending June 2024.
3-month organic order development compared to previous year.

Compressor Technique

- Organic order growth of 6%
 - Orders for industrial compressors basically unchanged
 - Strong growth for gas and process compressors across several customer segments
 - Solid growth for service
- Record revenues, 9% organic increase
- Operating profit margin at 24.8% (24.0)
 - Supported by higher volume and currency
 - Negative effect from unfavorable sales mix
- ROCE at 84% (83)

Innovation:

A new energy-efficient air-cooled desiccant dryer, the MDG 450 Aircooled, minimizes system failures, production downtime, and costly repairs by removing moisture from compressed air with a guaranteed dew point of -40°C.

Vacuum Technique

- Orders up 2% organically
 - Semi equipment orders up from a low level
 - Industrial and scientific equipment down
 - Solid growth for service
- Revenues down 8% organically
- Operating profit margin at 20.1% (22.9)
 - Adjusted for restructuring costs 21.5% (22.9)
 - Negatively affected by lower volumes and sales mix
- ROCE at 21% (23)

Innovation:

A new integrated vacuum and abatement system, the Hydrogen Dilution (H2D-HPX), was introduced. By diluting hydrogen from the production process, customers can benefit from lower energy consumption and a lower carbon footprint.

Industrial Technique

- Organic order decline of 13%
 - Markedly weaker equipment demand from the automotive industry
 - Equipment orders to the general industry unchanged
 - Solid growth for service
- Revenues increased 4% organically
- Operating profit margin at 20.8% (21.8)
 - Negatively affected by investments in R&D, digitalization and large project business
- ROCE at 22% (20)

Innovation:

A new cordless range of nutrunners, the XB range, supporting the air-to-electric transformation, primarily in the general industry. It helps customers increase production quality and efficiency through data reporting and operator feedback.

Power Technique

- Organic order decline of 11%
 - Equipment orders markedly down
 - Growth for specialty rental, further supported by acquisitions
 - Solid growth for service
- Revenues up 8%, organically flat
- Operating profit margin at 19.0% (19.0)
 - Supported by combined volume, price, mix and other effect
 - Negatively affected by acquisitions
- ROCE at 20% (23)

Innovation:

A new medium-sized energy storage system, the ZBP 120-120, enables the creation of microgrids at infrastructure construction sites and can support hybrid power plants. It is designed for a harsh environment and can be recharged within an hour.

Group total

April – June 2024 vs. 2023

Near-term outlook

Atlas Copco Group expects that the customer activity will remain at the current level.

Q2 Summary

- Mixed demand but solid overall order intake
 - Strong growth for gas and process compressors, industrial compressors flat
 - Vacuum equipment orders unchanged
 - Order decline for industrial assembly and vision solutions
 - Decreased order intake for power and flow
 - Solid growth for service in all business areas
 - Growth in all regions except Asia
- Solid revenues and operating cash flow
- Near-term outlook:
Atlas Copco Group expects that the customer activity will remain at the current level

Forward-looking statements

“Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.”
