Q3 2017 results

October 18, 2017

*Atlas Copco*

## Q3 in brief

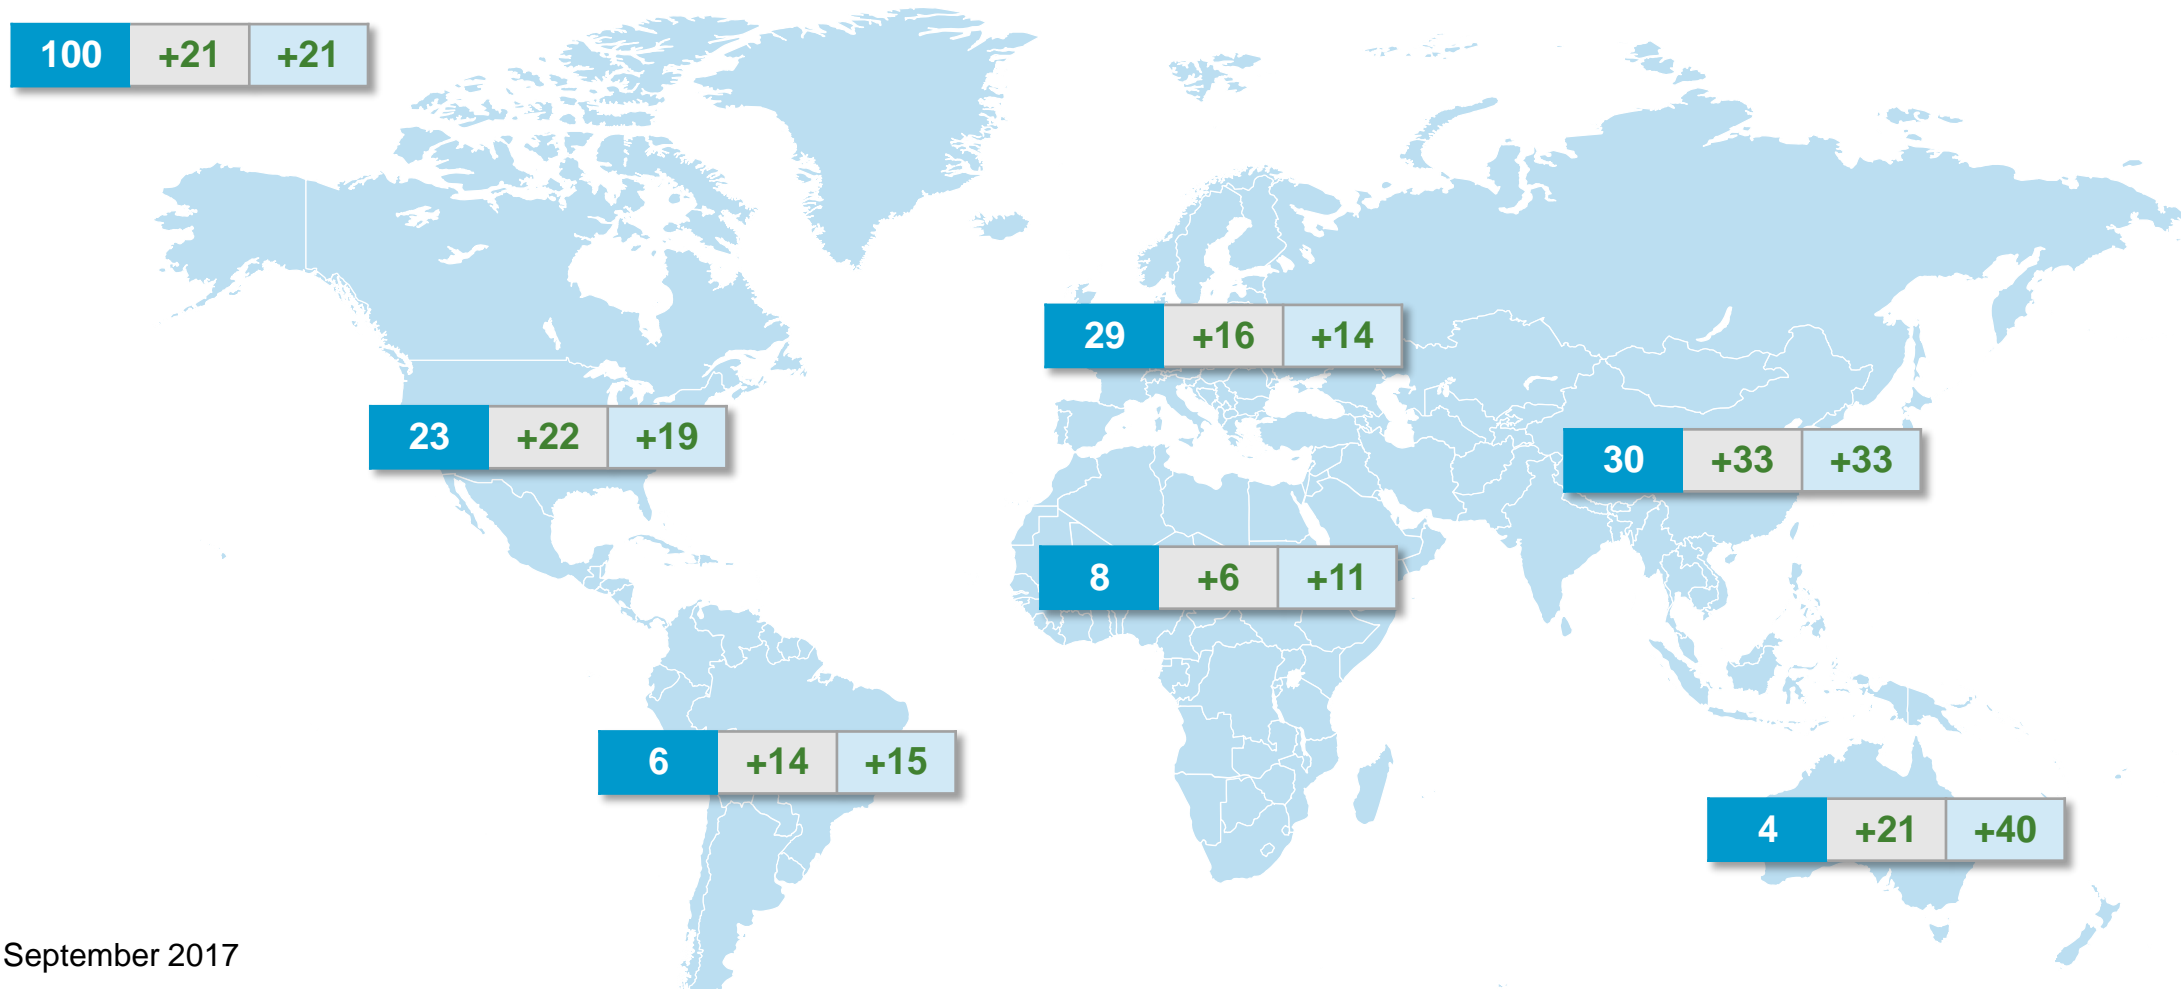

- Strong order growth
- Good traction for new products and innovation
- Order growth for all business areas
  - Particularly strong growth for vacuum and mining
- Double-digit growth in all regions
- Record profit and solid operating cash flow
- The split project progressing according to plan
- Road Construction Equipment divestment completed

## Q3 figures in summary – continuing operations

- Orders received were MSEK 30 552, organic growth of 17%
- Revenues were MSEK 28 499, organic growth of 10%
- Reported operating profit increased 24% to MSEK 6 268 (5 074), margin at 22.0% (19.6)
- Adjusted operating profit was MSEK 6 187 (5 240), margin at 21.7% (20.3)
  - Items affecting comparability of MSEK +81 (-166)
- Profit for the period was MSEK 4 446 (3 436)
- Basic earnings per share were SEK 3.66 (2.82)
- Operating cash flow\* was MSEK 5 008 (4 958)

*\*Including discontinued operations*

# Atlas Copco Group

Revenues by business area

12 months ending September 2017

# Compressor Technique

- Strong organic order growth of 14%
  - Good order development for industrial and gas & process compressors
- Continued steady growth for the service business
- Operating margin at 23.3% (23.1)
  - Supported by volume and mix

New low-energy consuming dryer, designed to maximize operational reliability.

# Vacuum Technique

- Organic order growth of 32%
  - Strong growth for semiconductor, industrial and high vacuum
  - Strong growth in all major regions
- Record revenues and profit
- Operating margin at 25.5% (20.8)
  - Mainly supported by volume
  - Acquired businesses exceed expectations

New energy-efficient turbo pump for industrial coating applications, used in the manufacturing of products such as smart phone displays and solar panels.

# Industrial Technique

- Organic order growth of 11%
  - Main drivers include lighter and mixed materials in car manufacturing
  - Increased activity in off-road segment
  - Good traction for service products
- Operating profit of MSEK 1 311 (897)
  - Positive one-time items of MSEK 380
  - Adjusted operating profit at 23.2% (23.4)

New software that supports error proofing in assembly applications. The software can reduce customers' cost for rework and warranty claims.

# Mining and Rock Excavation Technique

- Strong organic order growth of 22%
  - Equipment growth for underground and surface mining
  - Continued growth for service and consumables
- Operating margin at 20.2% (18.7)
  - Supported by volume
- Continued progress on the digital mine

New electrically powered product line for continuous mechanical mining, offering increased efficiency and safety.

# Power Technique\*

- Organic order growth of 9%
  - Strong growth for portable compressors and construction tools
  - Demand for specialty rental continued to develop positively
  - All regions contributed to the growth
- Operating margin at 16.4% (15.2)
  - Supported by volume

Extended range of portable generators that offers electrical power with quick start-up for customers at demanding worksites.
