

October 23, 2024

Atlas Copco Group

Third-quarter report 2024

Overall stable orders with mixed end-market demand

The comparison figures presented in this report refer to previous year unless otherwise stated.

Third quarter

- Orders received reached MSEK 42 080 (42 606), organic increase of 1%
- Revenues decreased 3% to MSEK 43 105 (44 485), organic decline of 1%
- Operating profit reached MSEK 9 337 (10 117), corresponding to a margin of 21.7% (22.7)
 - Adjusted operating profit, excluding items affecting comparability, was MSEK 9 441 (10 110), corresponding to a margin of 21.9% (22.7)
- Profit before tax amounted to MSEK 9 184 (9 928)
- Basic earnings per share were SEK 1.47 (1.60)
- Operating cash flow at MSEK 7 545 (6 581)
- Return on capital employed was 28% (30)

Summary of nine-month results

Orders received in the first nine months of 2024 decreased by 2% to MSEK 131 390 (133 784), corresponding to an organic decline of 2%. Acquisitions contributed with 2% while currency had a negative effect of 2%. Revenues increased by 2% to MSEK 130 783 (127 710), corresponding to a 2% organic increase.

Operating profit increased by 1% to MSEK 28 148 (28 005). The operating margin was 21.5% (21.9). Adjusted for items affecting comparability, the margin was 22.0% (22.1). Changes in exchange

rates compared with the previous year had a negative effect of MSEK 395.

Profit before tax was MSEK 27 819 (27 609), corresponding to a margin of 21.3% (21.6). Profit for the period totaled MSEK 21 994 (21 272). Basic and diluted earnings per share were SEK 4.51 (4.37) and 4.50 (4.36) respectively.

Operating cash flow before acquisitions, divestments and dividends totaled MSEK 21 066 (14 393).

Review of third quarter

Market development

The overall order intake for Atlas Copco Group's equipment and services remained basically at the same level as the previous year. Sequentially, order volumes were largely unchanged.

Year-on-year, order volumes for large and small industrial compressors were essentially unchanged, while the order intake for gas and process compressors did not reach the high level of the previous year. Orders for vacuum equipment increased due to stronger demand from the semiconductor and flat panel industry, while the demand for vacuum equipment from industrial and scientific customers decreased. The order intake for industrial assembly and vision solutions decreased, primarily due to markedly weaker demand from the automotive industry. Order volumes for industrial assembly and vision solutions to the general industry were basically unchanged. The demand for portable compressors and power and flow equipment decreased. However, due to contributions from recent acquisitions the order intake increased. Solid order growth was achieved for the service business in all business areas and the specialty rental business continued to develop positively in the quarter.

In total, the Group's order intake grew somewhat in Asia but decreased in North America and Europe.

Geographic distribution of orders received

Orders, revenues, and operating profit margin

Revenues, profits and returns

Revenues decreased with 3% to MSEK 43 105 (44 485), corresponding to an organic decline of 1%. Currency had a negative effect of 4%, and acquisitions contributed with 2%.

The operating profit decreased 8% to MSEK 9 337 (10 117) and includes a MSEK -83 restructuring cost in the Vacuum Technique business area, a MSEK -40 restructuring cost in the Industrial Technique business area, and a change in provisions for share-related long-term incentive programs, reported in Common Group Items of MSEK +19 (+7).

Adjusted operating profit decreased 7% to MSEK 9 441 (10 110), corresponding to a margin of 21.9% (22.7). The margin was negatively affected by currency, lower revenue volumes and dilution from recent acquisitions.

Net financial items amounted to MSEK -153 (-189) whereof interest net at MSEK -50 (-143). Other financial items, including financial exchange differences, were MSEK -103 (-46). Profit before tax amounted to MSEK 9 184 (9 928), corresponding to a margin of 21.3% (22.3). Corporate income tax amounted to MSEK -2 010 (-2 125), corresponding to an effective tax rate of 21.9% (21.4).

Profit for the period was MSEK 7 174 (7 803). Basic and diluted earnings per share were SEK 1.47 (1.60) and SEK 1.47 (1.60), respectively.

The return on capital employed during the last 12 months was 28% (30). Return on equity was 29% (32). The Group uses a weighted average cost of capital (WACC) of 8.0% as an investment and overall performance benchmark.

Operating cash flow and investments

Operating cash surplus decreased to MSEK 11 657 (11 926). Net financial items and taxes paid amounted to MSEK -2 943 (-2 474). Working capital decreased by MSEK 1 043 in the quarter (increase of 963). The main reason for the difference compared to the previous year was decreased inventories and receivables. Net investments in rental equipment were MSEK -580 (-507), and in property, plant, and equipment, MSEK -1 342 (-967).

Operating cash flow (an important internal KPI, but not an IFRS measurement, and hence defined on page 13) reached MSEK 7 545 (6 581).

Net indebtedness

The Group's net indebtedness amounted to MSEK 16 713 (25 293), of which MSEK 2 439 (2 324) was attributable to post-employment benefits. The Group's interest-bearing liabilities have an average maturity of 4.9 years. The net debt/EBITDA ratio was 0.4 (0.6) and the net debt/equity ratio was 16% (27).

Acquisition and divestment of own shares

During the quarter, 246 900 series A shares, net, were sold for a net value of MSEK 45. These transactions are in accordance with mandates granted by the Annual General Meeting and relate to the Group's long-term incentive programs. See page 17.

Employees

On September 30, 2024, the number of employees was 54 697 (52 179). The number of consultants/external workforce was 3 143 (3 280). For comparable units, the total workforce increased by 1 110 from September 30, 2023.

Industrial compressors

The demand for industrial compressors was stable, and order volumes remained unchanged compared to the previous year for both small and large-sized compressors. Sequentially, order volumes for industrial compressors were flat.

Geographically, compared to the previous year, the order intake increased in South America and Africa/Middle East, was unchanged in North America and Europe, and decreased in Asia.

Gas and process compressors

The order intake for gas and process compressors decreased compared to the strong quarter in the previous year. The lower order volumes were due to fewer orders in several customer segments. Sequentially, orders also decreased.

Year-on-year, the order intake increased in Asia and Africa/Middle East but decreased in North America and Europe.

Compressor service

The demand for service remained solid, and order growth was achieved in all regions.

Innovation

A new product range for compressing biogas was introduced, the BBR CBG, CU CBG & HN CBG. The range is suitable for biogas plants when upgrading biogas into biomethane for Compressed Natural Gas refueling and gas grid applications. The new products offer high performance, high reliability, and easy serviceability.

Acquisitions

The following acquisitions were completed in the quarter:

- Emcovele S.A., a compressor distributor in Ecuador with 49 employees.
- Kingsdown Compressed Air Systems Ltd., a distributor of compressed air and other equipment in the UK with 13 employees and revenues of MSEK 31 in 2023.
- Compressed Air Technologies, Inc., a US based distributor with 53 employees.
- Danmil A/S, a Danish process filtration company with 26 employees and revenues of MSEK 126 in 2023.

Revenues and profitability

Revenues reached MSEK 19 031 (19 493), corresponding to an organic increase of 2%.

The operating profit increased 2% to MSEK 4 974 (4 856), corresponding to a margin of 26.1% (24.9). The higher margin was supported by a positive currency effect and the combination of volume, price and mix, while dilution from recent acquisitions had a negative effect on the margin. Return on capital employed (last 12 months) was 85% (82).

Orders, revenues, and operating profit margin

Semiconductor and flat panel display equipment

The order intake for equipment to the semiconductor and flat panel display industry increased compared to the previous year, primarily driven by increased demand in Asia. Order volumes also grew sequentially.

Year-on-year, order volumes increased in Asia and Europe but decreased in North America.

Industrial and scientific vacuum equipment

Order volumes for industrial and scientific vacuum equipment decreased due to lower demand from various industrial customer segments, including battery production and solar energy. Sequentially, the order intake remained unchanged.

Geographically, and compared to the previous year, orders increased in Europe but decreased in North America and Asia.

Vacuum service

The order intake for service increased, primarily driven by stronger demand from the semiconductor industry.

Geographically, solid order intake was achieved in all regions.

Innovation

A new integrated vacuum and abatement system for the semiconductor market was introduced, the Warden System, specifically designed for safe handling in hazardous production processes. Its automatic control of the pumping process improves safety and prevents damage to production equipment, increasing uptime and productivity.

Acquisitions

The following acquisitions were completed in the quarter:

- AVT Services Pty Ltd., a company providing vacuum pumps and system sales, and service to customers in Australia. The company has 15 employees.
- Anhui NOY Technologies Co. Ltd., a Chinese helium leak detector manufacturer with 78 employees and revenues of MSEK 178 in 2023.

Revenues and profitability

Revenues decreased 3% to MSEK 10 444 (10 802), corresponding to an organic decline of 2%.

The operating profit decreased 18% to MSEK 2 014 (2 465), corresponding to a margin of 19.3% (22.8). Adjusted for restructuring costs of MSEK -83, the margin reached 20.1% (22.8). The lower margin can mainly be explained by a negative currency effect. Return on capital employed (last 12 months) was 20% (22).

* Volume, price and mix.

Automotive industry

The demand for industrial assembly and vision solutions to the automotive industry weakened and order volumes decreased markedly compared to the previous year. Sequentially, the order intake decreased somewhat due to lower demand in Asia.

Year-on-year, orders decreased in all regions, most significantly in Asia.

General industry

Order volumes for industrial assembly and vision solutions to the general industry remained essentially unchanged compared to the previous year. The order intake grew in certain customer segments like aerospace, off-highway, and energy, whereas orders declined in several other segments. Sequentially, order volumes decreased somewhat.

Geographically, compared to the previous year, order volumes increased in North America, but decreased in all other regions.

Service

The service business achieved solid growth with increased order volumes in all regions.

Innovation

A new compact robot-guided vision sensor for quality assurance was introduced, the PAINTSCAN Compact. The new product primarily aims to support improved in-line inspection of painted surfaces for the automotive industry and its sub-suppliers. Thanks to real-time production monitoring and process control, customers' production processes can be optimized continuously.

Acquisitions

The following acquisitions were completed in the quarter:

- Swed-Weld AB, a Swedish provider of smart automated screw and nut feeding systems with focus on the automotive industry. The company has 10 employees and had revenues of MSEK 30 in 2023.
- Mont-Tech Ltd., a Czech engineering company offering customized engineering solutions for assembly automation. The company has 27 employees and had revenues of MSEK 40 in 2023.

Revenues and profitability

Revenues decreased 6% to MSEK 6 832 (7 306), corresponding to an organic decline of 3%.

The operating profit decreased 17% to MSEK 1 364 (1 647), corresponding to a margin of 20.0% (22.5). Adjusted for restructuring costs of MSEK -40, the margin was 20.6% (22.5). The lower margin was mainly due to lower revenue volumes and a negative currency effect. Return on capital employed (last 12 months) was 21% (20).

* Includes an internal transfer from Compressor Technique.

** Volume, price and mix.

Equipment

The overall demand for equipment, such as generators and pumps, weakened compared to the previous year. However, due to contributions from recent acquisitions, the order intake increased. Sequentially, organic orders increased, primarily due to increased demand in North America.

Year-on-year, the order intake increased in North America and Europe but decreased in Asia.

Specialty rental

The specialty rental business remained stable, with contributions from recent acquisitions supporting the increased order intake.

Geographically, the order intake decreased in North America, was basically unchanged in Asia, and increased in Europe.

Service

Order volumes for service continued to increase with solid growth in all regions.

Innovation

A new range of surface dewatering pumps was introduced. The new products with connectivity capabilities are specifically designed to pump liquids with high pressure and flow. The pumps perform in the harshest pumping environments, such as in mining and quarries, as well as in the energy sector and many more areas.

Acquisitions

The following acquisitions were completed in the quarter:

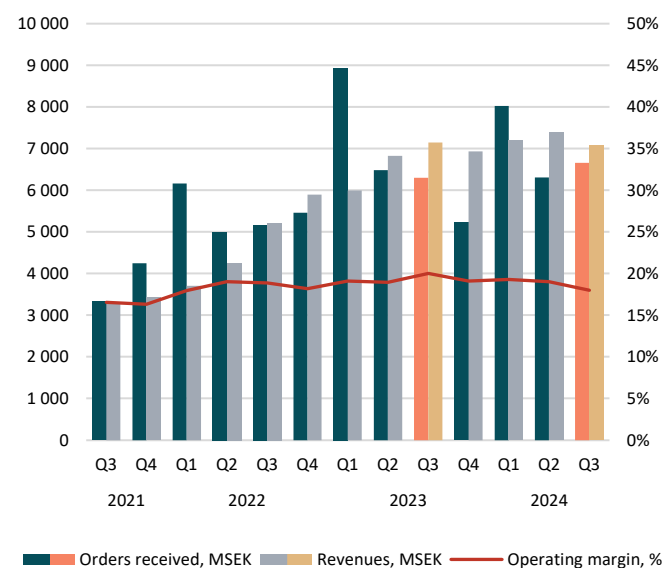

- Generator Rental Services, a company providing specialty power rental solutions. The company has 58 employees and had revenues of MSEK 263 in 2023.
- Integrated Pump Rental, a specialty rental provider of dewatering solutions in South Africa. The company has 18 employees and had revenues of MSEK 57 in 2023.

Revenues and profitability

Revenues decreased 1% to MSEK 7 072 (7 142), corresponding to an organic decline of 5%.

The operating profit decreased 11% to MSEK 1 274 (1 429), corresponding to a margin of 18.0% (20.0). The lower margin can mainly be explained by lower revenue volumes, investments in the specialty rental fleet, and dilution from recent acquisitions. Return on capital employed (last 12 months) was 18% (22).

Orders, revenues, and operating profit margin

Accounting principles

The consolidated accounts of Atlas Copco Group are prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU. The description of the accounting principles and definitions applied in this report are found in the Annual Report 2023. The interim report is prepared in accordance with IAS 34 Interim Financial Reporting. Non-IFRS measures are also presented in the report since they are considered to be important supplemental measures of the company's performance. For further information about these measures and how they have been calculated, please visit:

<https://www.atlascopcogroup.com/en/investor-relations/key-figures>

Risks, risk management and factors of uncertainty

Atlas Copco Group's global and diversified business is active within many customer segments and results in a variety of risks and opportunities geographically and operationally. Thus, the ability to identify, analyze and manage risks is crucial for effective governance and control of the business. The aim is to meet the Group's goals with a high awareness of risks and well-managed risk taking. Atlas Copco Group sees the benefits of an efficient risk management both from risk reduction and business opportunity perspectives, which can lead to good business growth.

Risks in Atlas Copco Group are identified in a 360-degree spectrum, meaning that both internal, and external exposures are assessed, including today's circumstances and future changes. The Group's risk management approach follows the decentralized structure of Atlas Copco Group. Risks are analyzed and addressed in an integrated way. Local companies are responsible for their own risk management, which is monitored and followed up regularly at for example local business board meetings. Group functions responsible for legal, insurance, human resources, compliance, sustainability, treasury, tax, controlling and accounting provide policies, guidelines and instructions regarding risk management.

Risk areas include compliance risks, external exposure risks, including pandemics, operational risks and strategic risks. These risk areas can impact the business negatively both in the long and short term, but often also create business opportunities if managed well. Examples of risks and how they are handled is described below.

Market risks

The demand for Atlas Copco Group's equipment and services is affected by changes in the customers' investment and production levels. A general economic downturn, geopolitical tensions, pandemics, changes in trade agreements, trade sanctions, a widespread financial crisis and other macroeconomic disturbances may, directly or indirectly, affect the Group negatively both in terms of revenues and profitability. However, the Group's sales are well diversified with customers in many industries and countries around the world, which mitigates the risk.

Financial risks

Atlas Copco Group is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco Group has adopted a policy to control the financial risks to which the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

Production risks

A large part of the components used in production are sourced from sub-suppliers. The availability is dependent on the sub-suppliers and if they have interruptions or lack capacity, this may adversely affect production. To minimize these risks, Atlas Copco Group has established a global network of sub-suppliers, which means that in most cases there are more than one sub-supplier that can provide a certain component. Atlas Copco Group is also directly and indirectly exposed to raw material prices. Cost increases for raw materials and components often coincide with strong end-customer demand and can partly be compensated for by increased sales prices.

Acquisitions

Atlas Copco Group has the ambition to grow all its business areas, primarily through organic growth, supplemented by selected acquisitions. The integration of acquired businesses is a difficult process and it is not certain that every integration will be successful. Therefore, costs related to acquisitions can be higher and/or synergies can take longer to materialize than anticipated.

For more information on Atlas Copco Group's risk management process and further descriptions of risks and how they are handled, see the Annual Report 2023.

Forward-looking statements

Some statements in this report are forward-looking, and the actual outcome could be materially different. In addition to the factors explicitly discussed, other factors could have a material effect on the actual outcome. Such factors include, but are not limited to, general business conditions, fluctuations in exchange rates and interest rates, political developments, the impact of competing products and their pricing, product development, commercialization and technological difficulties, interruptions in supply, and major customer credit losses.

Atlas Copco AB

Atlas Copco AB is a public company. Atlas Copco AB and its subsidiaries are often referred to as Atlas Copco Group, the Group or the company. Any mentioning of the Board of Directors or the Board refers to the Board of Directors of Atlas Copco AB.

Fair value of derivatives, cash equivalents and borrowings

The carrying value and fair value of the Group's outstanding derivatives, liquidity funds and borrowings are shown in the tables below. The fair values of bonds are based on level 1 and the fair values of derivatives, liquidity funds and other loans are based on level 2 in the fair value hierarchy. Compared to 2023, no transfers have been made between different levels in the fair value hierarchy for derivatives and borrowings and no significant changes have been made to valuation techniques, inputs, or assumptions. For further information, see note 26 in the Annual Report 2023. <http://www.atlascopco.com/ir>

* Annual revenues and number of employees at time of acquisition/divestment. No revenues are disclosed for former Atlas Copco distributors.

Due to the relatively small size of most of the acquisitions made in 2024, full disclosure as per IFRS 3 is not given in this interim report.

Disclosure on an aggregated level will be given in the Annual Report 2024. See the Annual Report for 2023 for disclosure of acquisitions made in 2023.

Class of share	Shares
A shares	3 357 576 384
B shares	1 560 876 032
Total	4 918 452 416
- of which A shares held by Atlas Copco AB	43 397 093
- of which B shares held by Atlas Copco AB	0
Total shares outstanding, net of shares held by Atlas Copco AB	4 875 055 323

Performance-based personnel option plan

The Annual General Meeting 2024 approved a performance-based long-term incentive program. For Group Management and division presidents, the plan requires management's own investment in Atlas Copco shares. The intention was to cover Atlas Copco's obligation under the plan through the repurchase of the company's own shares. For further information, see www.atlascopcogroup.com/agm

Transactions in own shares

Atlas Copco AB has mandates to acquire and sell own shares as per below:

- Acquisition of not more than 10 000 000 series A shares, whereof a maximum of 8 000 000 may be transferred to personnel stock option holders under the performance-based stock option plan for 2024.
- Acquisition of not more than 60 000 series A shares to hedge the obligation of the company to pay remuneration to board members who have chosen to receive 50% of the remuneration in synthetic shares.
- The sale of not more than 60 000 series A shares to cover costs related to previously issued synthetic shares to board members.

- The sale of a maximum 26 000 000 series A shares currently held by the company, for the purpose of covering costs of fulfilling obligations related to the option plans 2017, 2018, 2019, 2020 and 2021.
- The shares may only be acquired or sold on NASDAQ Stockholm at a price within the registered price interval at any given time.

During the first nine months in 2024, 4 496 040 series A shares, net, were sold. These transactions are in accordance with mandates granted. The company's holding of own shares at the end of the period appears in the table to the left.

Risks and factors of uncertainty

Financial risks

Atlas Copco AB is subject to currency risks, funding risks, interest rate risks, tax risks, and other financial risks. In line with the overall goals with respect to growth, return on capital, and protecting creditors, Atlas Copco AB has adopted a policy to control the financial risks to which Atlas Copco AB and the Group is exposed. A financial risk management committee meets regularly to manage and follow up financial risks, in line with the policy.

For further information, see the Annual Report 2023.

Related parties

There have been no significant changes in the relationships or transactions with related parties for the Group or Parent Company compared with the information given in the Annual Report 2023.

This is Atlas Copco Group

Atlas Copco Group enables technology that transforms the future. We innovate to develop products, services, and solutions that are key to our customers' success. Our four business areas offer compressed air and gas solutions, vacuum solutions, energy solutions, dewatering and industrial pumps, industrial power tools, and assembly and machine vision solutions. In 2023, the Group had revenues of BSEK 173 and about 53 000 employees at year-end.

Business areas

Atlas Copco Group has four business areas. The business areas are responsible for developing their respective operations by implementing and following up on strategies and objectives to achieve sustainable, profitable growth.

The **Compressor Technique** business area provides compressed air and gas solutions such as industrial compressors, gas and process compressors and expanders, air and gas treatment equipment, and air management systems. The business area has a global service network and innovates technology that transforms the future of the manufacturing and process industries. Principal product development and manufacturing units are located in Belgium, the United States, China, India, Germany, and Italy.

The **Vacuum Technique** business area provides vacuum products, exhaust management systems, valves, and related products. The main markets served are semiconductor and scientific instruments, as well as a wide range of industrial segments, including chemical process industries, food packaging, and paper handling. The business area has a global service network and innovates technology that transforms the future and improves customer performance. Principal product development and manufacturing units are located in the United States, Mexico, United Kingdom, Czech Republic, Germany, South Korea, China, and Japan.

The **Industrial Technique** business area provides industrial power tools, assembly and machine vision solutions, quality assurance products, and services through a global network. The business area innovates technology that transforms the future for customers in the automotive and general industries. Principal product development and manufacturing units are located in Sweden, Germany, Hungary, United Kingdom, France, the United States, China, and Japan.

The **Power Technique business** area provides portable air and power, industrial and portable flow solutions through products such as mobile compressors, generators, energy storage systems, dewatering and industrial pumps, along with a number of complementary products. It also offers specialty rental and provides service through a global network. The business area innovates technology that transforms the future for multiple industries, including infrastructure construction, manufacturing, oil and gas, and exploration drilling. Principal product development and manufacturing units are located in Belgium, Spain, Germany, the United States, China, and India.

Vision, mission and strategy

The Atlas Copco Group's vision is to become and remain First in Mind—First in Choice of its customers and other stakeholders. The mission is to achieve sustainable, profitable inclusive growth. This means that we should continuously deliver profitable growth with an increased positive impact on society and the environment and by promoting diversity and inclusion. Inclusion is about providing everyone within our organization with support and inspiration to learn and grow. It also means that we include the perspective of different stakeholders, like customers and society, when we create value. An integrated sustainability strategy, backed by ambitious goals, helps the company deliver greater value to all its stakeholders in a way that is economically, environmentally, and socially responsible.
