

ATLAS COPCO MINING AND ROCK EXCAVATION TECHNIQUE

Capital Markets Day – Focus on Service
November 17, 2015

Johan Halling, Business Area President

Atlas Copco

SAFETY FIRST

In everything we do

- Our goal – zero accidents
- Creating a sustainable safety culture
- Global campaigns to create awareness
- Preventive actions and activity plans
- Enhanced safety program for service technicians

AGENDA

1. Facts in Brief
2. Automation – Mechanical Rock Excavation
3. Two distinctive service businesses
 - Mining and Rock Excavation Service
 - Rock Drilling Tools
4. Summary

MINING AND ROCK EXCAVATION TECHNIQUE

Underground mining

Surface mining

Exploration

Civil engineering

Quarrying

Ground engineering

Water well, oil & gas

MINING AND ROCK EXCAVATION TECHNIQUE

In Brief

- Innovation and automation is key
- Strengthen the agility and resilience
- High focus on service and consumables
- Customers' focus is on total cost of operations

Q3 2015

- Growth in service and parts
- Lower order intake for equipment
- Operating margin at 20.0% (18.5 adjusted)

Orders, revenues and operating margin

ROCE
34%

ORDERS RECEIVED - LOCAL CURRENCY

Mining and Rock Excavation Technique

September 2015

A	Share of orders received, year-to-date, %
B	Year-to-date vs. previous year, %
C	Last 3 months vs. previous year, %

ROAD MAP AUTOMATION

AUTONOMOUS SURFACE DRILLING

First Tele-remote in South America

Multi equipment operations

Fully autonomous testing in July

AUTONOMOUS UNDERGROUND

- Equipment scope
 - All machines on the production level operated from a control room
- Loader automation development project
 - Production system to dispatch and monitor loading and haulage equipment
 - Auto loading
 - Proximity and collision avoidance

MECHANICAL ROCK EXCAVATION

Mobile miner

Reef miner

TWO DISTINCTIVE SERVICE BUSINESSES

Mining and Rock Excavation Service

Providing service solutions to our customers

> 4000
Service engineers

> 550
Sales engineers

Rock Drilling Tools

Providing rock drilling tools to our customers

MINING AND ROCK EXCAVATION SERVICE

Service offer

Replacement parts and kits

Service products

Service tools

Rock drills and rotation units

Custom engineered solutions

Certiq

Reman solutions

Upgrades

Training products

REPLACEMENT PARTS AND KITS

⊕ Features

- Readily available
- Complies with Atlas Copco quality standards
- Packaged for safe and efficient transport

⊕ Benefits

- Ensures safety features are properly functioning
- Promotes maintenance in the safest way possible
- Reduces time searching for the right parts
- Assures parts available at the time of service

SERVICE PRODUCTS

CARE Agreements – Your security for up time

+ Features

- Preventive maintenance
- Scheduled inspections and audits
- Inspection and overhaul protocols
- Extended warranty

+ Benefits

- Consistent machine performance
- Records for service and action needed
- Protection against unplanned extra cost

SERVICE PRODUCTS

RigScan

⊞ Features

- Fast, convenient, minimally invasive audit technology
- Combining visual inspections and performance analysis tools
- Global audit protocols

+ Benefits

- Increased productivity and improved safety through predictability
- Faster troubleshooting reducing maintenance costs
- Comprehensive performance analysis lowering operational cost

CERTIQ

Telematics solution

⊞ Features

- Telematics solution that gathers, compares and communicates vital equipment information
- Online 24-7 monitoring
- Intuitive graphics user interface
- Fleet overview

+ Benefits

- Let your machines do the talking
- One step ahead of everything
- Evaluate. Encourage. Excel.

FOCUS ON PROFITABLE GROWTH IN SERVICE

Mining and Rock Excavation Technique

Strategy

- Increase market and customer share by offering the right value proposition
- Improve parts availability and stock visibility
- Operational efficiency in service operations and workshop footprint
- Price and cost management

Organic growth

CONSUMABLES – ROCK DRILLING TOOLS

Product portfolio

Top hammer

Down-the-hole

Rotary

Raise boring

Exploration

Fixed cutter bits

Handheld

Geotechnical drilling

Ground support

BUSINESS CONCEPT – ROCK DRILLING TOOLS

- A complete drill string
- Partnership - long term
- Value oriented contracts
 - Guaranteed performance / cost per meter
 - Supply and inventory management
 - Including service / reconditioning
 - Technical service / training
- Common goal – Customer's success

FOCUS ON PROFITABLE GROWTH IN CONSUMABLES

Mining and Rock Excavation Technique

Strategy

- Increase market and customer share by offering new innovative products and the right value proposition
- An efficient distribution (supply chain)
- Operational efficiency
- Price and cost management

Organic growth

SUMMARY

Business

- Short and medium term, the market for mining equipment is depressed
- Actions to adapt to the current environment
- Resilient profitability due to high share of revenues from service and consumables
- Long term, the market for Mining and Rock Excavation Technique is good

Innovation

- Innovation, automation and autonomous solutions are key
- More productive and efficient equipment, services and consumables
- Efficiency and time to market
- Growth opportunities

Reduce customers' total cost of operations

***COMMITTED TO
SUSTAINABLE PRODUCTIVITY.***
