Impact of tariffs

**Estimated cost impact:
MUSD 15 per year**

- Majority of impact is on supply from Atlas Copco China to Atlas Copco US
- The main mitigating actions include changed sourcing countries and price increases

Impact of “hard” Brexit

**Estimated cost impact:
MUSD 13 per year**

- The direct cost impact is mainly related to tariffs on goods moving in and out of the UK
- Other costs relate to:
 - One to two days longer lead time due to border controls
 - Additional personnel resources to handle issues with VAT, trade compliance, and logistics
 - Build up of safety stocks
- Over time a slower GDP growth in the UK is expected
