

The Atlas Copco logo, featuring the company name in a white, italicized serif font, centered between two horizontal white bars on a teal background.

Atlas Copco

A close-up view of the teal hull of a ship, with the words "ATLAS COPCO" printed in a white, italicized serif font.

ATLAS COPCO

A technical drawing of a compressor, showing various components and dimensions, overlaid on a teal background.

**ATLAS COPCO
MARINE COMPRESSOR
PARTS & SERVICE**

Maintenance solutions for compressed air applications onboard ships

At your service around the world

Atlas Copco Compressors are extremely reliable and durable which is why their total cost of ownership is the lowest in the business. Our range of marine compressors set the standard in marine compressed air solutions. Reliable, energy efficient and equipped for the highest standards. These characteristics are particularly important in the harsh maritime environments. However even machines with long maintenance intervals and service lives need attention.

That's why Atlas Copco offers parts and services packages which provide you with peace of mind while your vessels are at sea. With genuine Atlas Copco spare parts and well-trained service engineers, we can support you wherever you are.

SMARTLINK Connects you to an easier life.

What can SMARTLINK do for you?

Knowing the status of your compressed air equipment at all times is the surest way to spot any developing problems, uncover potential energy savings and achieve maximum uptime of your compressors. These insights can be realised through SMARTLINK, Atlas Copco's remote data monitoring system.

SMARTLINK can work via your vessel's internet (satellite) network where compressor data will be continuously updated.

Alternatively, SMARTLINK can rely on passing through network coverage areas and data will be uploaded from there.

Energy Efficiency

Save up to 30%

With improved energy efficiency (70% of the money you spend on your compressor is on energy)

Uptime

Increase your uptime 3%

By having your compressors under a service contract with SMARTLINK

Overall Health

Actively monitoring more than 30 data points

Via SMARTLINK will help you to improve the health rate of your compressor

SMARTLINK. Connecting you to an easier life.
