Talk To Us About Our Helium Compressor Range

Atlas Copco's CU gas compressors were made for helium compression.

- CU Compressors feature pressure-tight crankcases, 100% of the helium remains within the compressor and nothing is lost to atmosphere.
- To achieve the specific pressure for your process, choose from our range of standardized or tailor-made designs.

CU Series Range

- Belt Driven Units
- Air Cooled Design
- Inlet Pressure: 1.3-227 PSIG
- Discharge Pressure: 3,600-5,076 PSIG
- Flow: 76-420 SCFM
- Shaft Power: 50-150 HP
