After Sales Protection Plan

The best solution for minimizing your downtime
and taking control of operating costs

atlascopco.com

Atlas Copco's After Sales Protection Program is the umbrella name for after purchase maintenance programs that have the added benefit of extending the warranty of our portable products. ASPP consists of two different products to protect your investment; increase your uptime by a maintaining reliable operation; eliminating unexpected peaks on operational costs, and extending machine warranty. We protect you and your investment!

Why do you need an After Sales Protection Plan?

Experiencing downtime is incredibly stressful and disruptive. Our protection programs help you protect your investment with a proper maintenance and keep your operational cost consistent.

| | | | |
|---|--|---|--|

Minimize your total cost of ownership

Reliable on-time service according to our operating manual instructions will help avoid unexpected investment spikes. Our bumper to bumper warranty to helps minimize total cost of ownership!

Increased uptime

Experiencing downtime is incredibly stressful and disruptive, whether it is a routine maintenance or a major repair. Get unmatched quality and service for equipment on time! Atlas Copco is with you to grow your business.

Budget protection

Breakdowns happen and the costs can add up. Proper maintenance can help minimize this and extended warranty can help keep the budget consistent.

Lock in maintenance parts pricing to protect against inflation throughout the life of the contract!

Improved customer satisfaction

By purchasing an extended warranty program, customers can ensure they are protected during every step of their ownership.

Ensure your equipment is protected!

Value

The plan becomes more valuable as the equipment ages. Equipment that is under warranty or an extended warranty is more likely to be well maintained and in good working order. These records can provide more value to the current owner, and can command a higher resale value.

Our Connectivity packages also provides consistent insights about the working condition of your unit.

Our After Sales Protection Plans are transferable and exchangeable!

ASPP

| |  AFTER SALES PROTECTION PLAN 3 YEARS |  AFTER SALES PROTECTION PLAN 5 YEARS |
