## Pioneering 100% oil-free air technology

If your operations require unquestionably clean air, then “technically oil-free” compressed air just won’t do. Atlas Copco was the first supplier to obtain the ISO 8573-1 Class 0 certification for its oil-free compressors. Ever since, “Class zero” compressors are the industry standard and the only guarantee for 100% oil-free compressed air.

Atlas Copco Rental offers a **complete range of 100% oil-free compressors**, so we always have the right machines for the job. Thanks to oil-free technology you enjoy peace of mind as well as energy-savings and industry-leading performance.

- Zero risk of oil contamination
- Certified for the **most demanding industries** and applications
- Less maintenance and no oil top-ups
- Industry-leading performance
- Energy-efficient compressors

## Independently certified

Don’t just take our word for it: all Atlas Copco compressors are tested and certified by TÜV, an international organization specializing in evaluating the safety and quality of technologies. The TÜV is recognized worldwide for its independence, neutrality and strict standards.

Our oil-free air compressors underwent **the most severe tests available** and passed them all with flying colors.

# Our rental fleet

## Air and on-site nitrogen

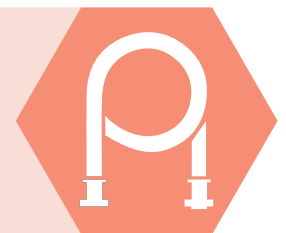

### Oil-free compressors

- Diesel or electric
- Certified ISO 8573-1 Class 0
- Containerized

### Air Dryer, air treatment and accessories

- Desiccant and refrigerant dryers
- Air filters
- Heat exchangers and flow meters

### On-site nitrogen generators

- Purities 95 to 99,9%
- Different flows and pressures

### Boosters

- Air and nitrogen
- On- or off-shore
- Framed or containerized

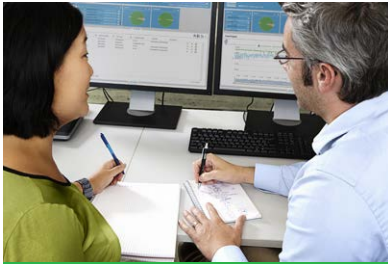

### High pressure oil-injected

- Diesel or electric
- Containerized

# Total solution concept

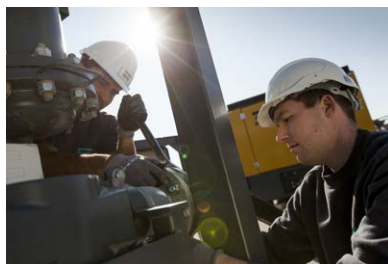

- Technical feasibility
- Safety and quality
- Energy efficiency
- Ease of installation

## Design of temporary installation

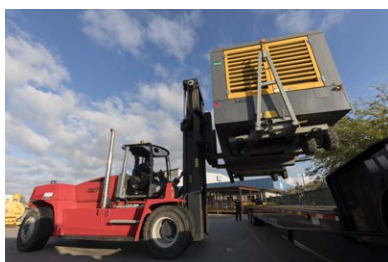

- Transport
- Import/export
- Certificates
- Loading and start-up guidelines

## Logistical services

- Installation
- 24/7 Service and maintenance
- Supervision
- On-site operators
- Decommissioning

## Services

- Class 0, 100% oil-free air
- iACCESS technology
- Large range to accommodate your applications
- Environmentally conscience

## Quality Equipment

# Our vision

Atlas Copco  
Specialty Rental  
to become and remain

“First in Mind – First in Choice®”

in providing temporary  
air & nitrogen solutions  
to the industrial, energy,  
mining & drilling  
markets

## Triple certification

We go the extra mile to deliver more than just a machine. Atlas Copco Specialty Rental was the first company in its sector to be awarded triple certification by Lloyd's Register Quality Assurance.

- **High quality equipment and services: ISO 9001**  
Quality applies to all our equipment and services. We want to get it right and on time, with state-of-the-art products and well-trained employees.
- **Making sustainability work: ISO 14001**  
Class zero certified machines, responsible use of resources and energy-efficient equipment: we go to great lengths to keep our environmental footprint as low as possible.
- **Caring about people: OHSAS 18001**  
We keep an eye on a safe and healthy working environment. Stringent safety measures for your staff and our own employees support our zero accidents policy.

# 9 reasons to rent with Atlas Copco Rental

1

## Save money & improve your bottom line

Renting provides significant financial advantages over buying. Moreover, renting is a service and in most countries you can deduct this from your tax statement.

2

## Regulate your inventory

Do you need to own a compressor or do you need the air to drive your processes? We can help you build an asset-light and lean operation.

3

## Get the right equipment, when you need it

Have a flexible and energy efficient approach to your future production plans.

4

## Receive support 24/7

Contact dedicated support representatives. They will resolve any issue, day or night.

5

## Save space

Make significant savings in space and costs by eliminating the need for storage and warehousing.

6

## Reduce downtime

If equipment breaks down, we will handle it quickly and efficiently to keep your plant running with minimum interruptions.

7

## Avoid costly repairs & maintenance

We take care of the maintenance, so you won't need a repair shop, spare parts inventory or mechanics. Preventive and corrective maintenance is part of our service.

8

## Control your costs & reduce administration

Simplify your bidding and billing. We will send you a monthly invoice for our complete service. We also handle certification documents on request.

9

## Conserve your capital

Use your capital to invest in your core business.

# Atlas Copco Rental, the industry leader

## Worldwide reach

Atlas Copco is the industry leader when it comes down to short- or long term rental of on-site nitrogen, accessories, technology and total solutions. We have the biggest dedicated rental fleet in the world, at your disposal.

## With tough standards

The Specialty Rental Division has been granted triple certification to ISO 9001:2000, ISO 14001:2004 and OHSAS 18001 for Quality, Environmental and Occupational Health & Safety Management by Lloyd's Register Quality Assurance (LRQA). This demonstrates our commitment to the quality of our services, our care for the environmental impact of our operations and the health of our employees and customers.

## *Sustainable Productivity*

We are committed to our customers and employees. We provide a global network of rental depots with reliable solutions and 24/7 support. We are triple certified for Quality, Environmental, and Occupational Health and Safety Management. This is what we call Sustainable Productivity.
