Chicago Pneumatic

Care. Trust. Efficiency.

Care.

Care is what service is all about: professional service by knowledgeable people, using high-quality original parts.

Trust.

Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

Efficiency.

Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.

Single Stage Cast Iron CP Ironman 2-15 HP / 1,5-11 kW

Professional Performance and Reliability

Slow turning, long lifetime cast iron pumps with two years warranty, providing strong performance. Optimal cooling is guaranteed by using cylinder heads with deep cooling fins, a cast iron flywheel and a strong copper outlet pipe. The large oil sight glass makes it easy to check the oil level. The long lifetime and low wear level of the pump are made possible by making use of a cast iron shaft, connecting rod and cylinders. Losses are minimized thanks to the use of stainless steel valves and valve plates.

Efficiency

MEPS compliant, highly efficient IP55 motor with copper windings guarantees reliable protection from dust, oil and water.

Quality

Reliable operation with high-quality Condor pressure switch installed on all models.

Stability

AS certified air tanks up to 500 litres with forklift feet for better performance and easy transportation.

Strong and robust

Full range of specially selected cast iron pumps. High-quality components.

User comfort

Easy maintenance and clear oil level indicators. Single phase models are delivered with filter-regulator and quick-couplings.

Easy to move

To improve mobility the single phase units are equipped with two solid, rubber wheels and feet.

Spare Parts

Multiple types of service kits and oil are available for all models, as well as single spare parts. This helps to properly plan maintenance saving time and money.

Oil

Altair oil with a unique formula designed for cast iron piston compressors ensures minimum wear.
